Figure 1: Heatmap and dendrogram showing gene expression data across various samples. The color key indicates the Row Z-Score, ranging from -2 (red) to 2 (yellow). The dendrogram shows hierarchical clustering of columns. The heatmap displays gene expression data across various samples, with columns labeled Seud1-2, Seud1-1, Seud1-3, Seud1-4, NHR40-4, NHR40-1, NHR40-3, and NHR40-2.
